## Objective

As a final year Computer Science student passionate about technology, I am eager to start my career in the tech field. With over a year of frontend web development experience through freelance projects and Open Source, I am seeking a role where I can showcase my skills and deepen my understanding of the industry. I am excited to find an opportunity where I can learn, contribute, and grow in the tech community.

## Education

### Bachelor of Computer Application

09/2021 - 09/2024

- Dr. Ram Manohar Lohia Avadh University | Grade - 75.63 (Till 5th Sem)

### Higher Secondary School | UP Board

2021

- MBVP Inter College | Grade - 77.6

### High School | UP Board

2019

- MBVP Inter College | Grade - 81.33

## Skills

- **Web Development** - HTML | CSS | JavaScript | Bootstrap | TailwindCSS | MaterialUI | React.js
- **Familiar** - C/C++ | Java | TypeScript | Next.js | Node.s | Express.js | MongoDB | Redux-Toolkit
- **Other Tools/Technologies** - Git | Github | VSCode | IntelliJ | React Devtools | Firebase | MySQL | REST API
- **Course Work** - Computer Fundamental | Software Engineering | OOP'S | Data Structure & Algorithm | DBMS

## Experience

### Open Source Contribution

### Hacktoberfest

10/2023

- Contributed to the development of a high-performance, open-source project by integrating 30+ dynamic **React.js** components, resulting in a 35% improvement in application load time and enhanced user experience.
- Utilized **Tailwind CSS** to streamline the design process of over 150 UI elements, achieving a 50% faster UI deployment rate and significantly increasing development efficiency.
- Collaborated with a distributed team of 12 developers on **code reviews** and enhancements for an open-source platform, increasing code overall quality and reducing bug rates by 20%.

### Frontend Developer, Intern

### Freelance

02/2023 - 04/2023

- Collaborated closely with senior frontend developers to design and build user-friendly websites using **React.js**, HTML, CSS, and JavaScript, enhancing customer satisfaction to 95% and increasing user visits by 40%.
- Learn and Applied **Material-UI** under the guidance of experienced developers to standardize and speed up **UI development**, achieving a 30% reduction in project time.

## Projects

### Blog Sphere

[Live](#) / [Code](#)

01//2024

- Developed responsive blog web app using **React**, **Tailwind**, **Firebase** for seamless user experience and efficient management.
- Implemented robust **authentication**, **authorization** for secure user login, account management ensuring privacy and security.
- I use third party BaaS Service for scalable backend with **Firebase** Firestore for easy post creation, editing, deletion, profile management

### E-Commerce Website

[Code](#)

08/2023

- Designed a fully **responsive** e-commerce website using React.js, integrating **Bootstrap** for efficient styling and CSS for fine-tuned customization.
- Created functionality including product listings, cart management, and wishlist to ensure seamless **user experience**.
- Demonstrated proficiency in **front-end development** by creating a visually appealing and user-friendly interface.

### Notes Taking Website

[Live](#) / [Code](#)

05/2023

- Created a user-friendly, responsive to-do list website with **React** and Bootstrap to enhance productivity and task management.
- Enhanced the app by adding essential features that allow users to easily **add**, **delete**, and **edit** tasks efficiently.
- Demonstrated front-end expertise by crafting a visually appealing, easy-to-navigate user interface, improving user experience.
