OBJECTIVE

Looking for a challenging career in the field of Computer Science which provides me a platform to present my theoretical and practical knowledge and develop my experimental and research skills and extend myself to higher work in the field of my technical intrests.

EDUCATION

Bachelor of Computer Applications | Grade - 75.63% (Till - 5th Semester)   2021 - 2024
Dr. Ram Manohar Lohia Avadh University, Faizabad

HIgher Secondary | Grade - 77.6%   2021
Mahatma Buddh Vidyapeeth Inter College

High School | Grade - 81.33%   2019
Mahatma Buddh Vidyapeeth Inter College

PROJECTS

Blog Website

• Built a responsive blog app using **React**, **Tailwind**, and **Firebase** with secure authentication and user management.
• Used Firebase Firestore for scalable backend, enabling easy post creation, editing, deletion, and profile management.

E-Commerce Website

• Designed a responsive e-commerce site with **React.js**, **Bootstrap**, and custom CSS, featuring product listings, cart management, and a wishlist..
• Created a visually appealing, user-friendly interface, showcasing **front-end development** skills.

Notes/Task Taking Website

• Created a responsive to-do list website with **React** and **Bootstrap**, featuring task addition, deletion, and editing for efficient management.
• Demonstrated front-end expertise by designing a visually appealing, **user-friendly interface** to enhance productivity and user experience.

SKILLS

Web Development - HTML | CSS | JavaScript | Bootstrap | TailwindCSS | MaterialUI | React.js
Familier - C/C++ | Java | TypeScript | Next.js | Node.s | Express.js | MongoDB | Redux-Toolkit
Other Tools/Technologies - Git | Github | VSCode | IntelliJ | React Devtools | Firebase | MySQL | REST API
Course Work - Computer Fundamental | Software Engineering | OOP'S | Data Structure & Algorithm | DBMS

ACHIEVEMENT & OPEN SOURCE

Open Source | Hacktoberfest   10/2023

• Integrated over 30 dynamic **React.js** components into an open-source project, resulting in improved application load time and enhanced user experience.
• Utilized **Tailwind CSS** to streamline the design process of over 150 UI elements, achieving a faster **UI deployment** rate and significantly increasing development efficiency.

Freelance Work   02/2023 - 04/2023

• Collaborated on user-friendly websites with **React.js**, **HTML**, **CSS**, **JavaScript**, achieving 95% customer satisfaction, 40% visitor increase. Implemented **Material-UI** for standardized UI, reducing project time by 30%.

Open Source | GirlScript Summer of Code   (*Ongoing)   05/2024 - 08/2024

Participated in GirlScript Summer of Code **open-source** contest, contributing my first PR and actively ongoing in the contest. Currently focusing on making the website **responsive** to enhance user experience.

Hobby & Interest - Learning New Technologies, Listening Music, Playing Cricket.
